RE: Supplemental Records Search Results for "Breen"

Dear Mr. Smith:

As was requested yesterday during a phone conversation with Ms. Judy Malmquist, I conducted a search through microfiche blowbacks (1973-1979) for Property Class 6850 (Miscellaneous Chemical Specialties (e.g. antifogging compound, antifreeze, deicing fluid, etc.) in case solvents were also included in this Property Class. No sales were identified for Bidder Identification Number 3000267839.

This information supplements the records search results found in my letter to you dated August 6, 1996.

If you have any questions, please call Steve Swanson or me at (303) 763-8881.

Sincerely,  
QUANTALEX, INC.

Leo Oserow  
Staff Consultant
